

Kyle Semple

Forward Deployed Engineer · Technical Systems Translator

Washtenaw County, MI • 734-882-9095 • kmsemp26@gmail.com • [LinkedIn](#)

PROFESSIONAL SUMMARY

Forward Deployed Engineer and customer-facing technical operator. I build and ship AI-assisted web systems, turn ambiguous goals into structured delivery, and bring real technical-support and data-operations rigor to customer-facing work — translating complex technical, operational, and spatial problems into systems people can understand, adopt, and use. Targeting Forward Deployed Engineer, Implementation Engineer, and technical systems roles in AI-adjacent products.

EXPERIENCE

Independent Systems & Web Consultant — HPS Geospatial

2021–Present

[REACT](#) · [TYPESCRIPT](#) · [VITE](#) · [GITHUB](#) · [GOOGLE CLOUD RUN](#) · [GOOGLE AI STUDIO](#) · [CLAUDE CODE](#) · [DOCUMENTATION](#)

Designed and refined web-based systems intended to improve user clarity, trust, and delivery readiness for external reviewers and stakeholders.

Built AI-assisted application workflows using governed multi-tool processes, including roadmap creation, implementation planning, architecture hardening, and documentation.

Translated ambiguous goals into structured delivery plans, scoped phases, and supporting artifacts rather than ad hoc iteration.

Produced handoff-ready implementation guidance, roadmap materials, and documentation to support continued development and deployment.

GIS Data Operations Analyst — Apex Systems / CenterPoint Energy

2022–2024

[ESRI ARCMAP](#) · [UTILITY GIS WORKFLOWS](#) · [DATA QA](#) · [TRIAGE](#) · [PRODUCTION DATA MAINTENANCE](#)

Worked within structured utility GIS workflows to process service-related edits, data updates, and mapping changes with attention to accuracy and downstream usability.

Handled high-volume operational requests in a controlled environment where repeatability, consistency, and validation mattered.

Supported backlog reduction and workflow continuity through reliable data maintenance and structured execution.

Strengthened discipline around production-safe procedures, quality checks, and working within systems where errors could affect downstream operations.

Technical Customer Support Representative — Printful

2021

[ZENDESK](#) · [E-COMMERCE SUPPORT](#) · [ESCALATION WORKFLOWS](#) · [CUSTOMER TROUBLESHOOTING](#)

Provided technical support through Zendesk for customer issues spanning e-commerce integrations, account workflows, product questions, warehousing, and shipping.

Triaged support requests, clarified customer needs, and coordinated with internal teams or partner SMEs to drive timely resolution.

Supported customer trust through clear troubleshooting, accurate communication, escalation discipline, and follow-through.

Conducted live-chat discovery with prospective customers to understand goals and route them toward the right product path.

CORE SKILLS

Customer Success Support · Technical Troubleshooting · Issue Triage

Implementation/Onboarding Support · Cross-functional Coordination · Stakeholder Communication

Documentation & Enablement Assets · Demo Environments · Process Improvement

Dashboards & Reporting · Data QA / Validation · Operational Throughput
